hedging and invoicing strategies to reduce exchange rate ...

Hedging and invoicing strategies to reduce exchange rate exposure: a euro-area hedging with exchange rate derivatives allow a fairly straightforward management of transaction and translation risk and discusses under which circumstances their use is optimal Economic risk is by its very nature harder to manage, but the paper argues that natural hedging provides possibilities for doing so

In depth A look at current financial reporting issues

Real estate management and real estate development: The accounting for a contract that includes components that are in the scope of IFRS 15 and other components that are in the scope of the leasing standard does not differ from current guidance The leasing guidance will continue to be used to separate leases from service contracts For example, this means that a real estate manager would
